

LEAP
into your
Aviation Career
with **GE AVIATION**

Lafayette, IN Engine Facility Lobby

Position: Powerplant Licensed Aviation Mechanic

Starting Pay Rate: \$31.20/Hour

- Paid Travel Expenses for On-Site Interview
- Relocation Package Included

Location: Lafayette, IN

Work Scope: New Production/Overhaul of CFM LEAP Engines & Passport Production

Requirements:

- High School Diploma/GED
- FAA Powerplant license (Required by start date)

Job Opportunity:

The GE Aviation Lafayette Engine Facility in Lafayette, Indiana is excited to be leading assembly and overhaul of the LEAP family of engines and the assembly of the Passport engine. We're expecting significant growth in the upcoming years and anticipate a sizeable increase in our need for self-driven and multi-skilled Powerplant Licensed Assembly & Test Technicians. At Lafayette, our Assembly & Test Technicians do more than build—they actively participate in site decision-making, drive safety, quality, & production goals, and experience personal and professional growth as a result. Our culture is designed around a flat organization that empowers self-directed, high-performing teams. By utilizing teams to own, operate, and regulate assembly processes we ensure our engines reach the customer in a quality and timely fashion.
